

FOR IMMEDIATE RELEASE

BALI DYNASTY RESORT

“EXPERIENCE NEW LOOK’ PARTY ON 26 SEPTEMBER 2008”

On the 26th September the Bali Dynasty Resort officially opened its' new Lobby. A glitzy party, with over 120 Travel Agents and Tourism partners were invited to experience the “New Look” to emphasise the diverse facilities including restaurants, dining, activity and entertainment options that the resort has to offer, ensuring that neither holidaymakers nor business people need leave the resort since everything is catered for within the Resort itself!

The Bali Dynasty Resort will soon boast 6 restaurants, catering to the varying tastes and budgets of its' guests, and the party showcased the diverse flavours and entertainment on offer through an eclectic offering of Chinese, Irish, Indian and Indonesian performances accompanied by food.

The guests could sip cocktails from the new D' Lounge bar, characterised by its graceful white onyx counter and a hi-tech LED lighting system that gyrates through the colours of the rainbow, while being entertained by Bali's famous World Music band Saharadja

The party was concentrated in the new main lobby which has just been transformed with an investment in excess of half a million dollars to create a prestigious first impression. The centre piece of the new lobby lounge is the 'Disklavier' grand piano with its invisible piano player, so guests can be entertained by acoustic piano music. The architecture and décor is now contemporary in style, while still paying homage to Balinese culture with indigenous materials, locally made furnishings, and hand crafted accessories

The new Lobby, together with the new Studio Rooms, marks the completion of the first stage of Bali Dynasty Resort's extensive modernisation programme.
